SOFTWARE ENGINEER

Joostenbervlakte,
Cape Town
Western Cape

07/12/2022
Application for the oppurtunity:

Dear hiring team

My name is Louchelle Brand and I recently graduated my Software Engineering Bootcamp with an outstanding average of 98% at Hyperiondev in November 2022. I am currently busy with an accredited Database Skills program to further enhance my qualifications.

I am a highly motivated and result-oriented individual with a pro-active approach as well as the ability to take initiative and to successfully complete projects. I take any opportunity I get to learn and grow. I always focus on self improvement. For these reasons I believe that I am the best fit for your company.

Some of the skills I earned from completing my bootcamp:
- working with various tools and using different technique
- how to solve problems and think analytically.
- Completing projects in python and Java.
- Agile development, SQL, recursion, quality assurance, debugging, unit testing, refactoring, Object-Oriented-Programming.

It would be my honor to start my career at your company and to be granted the opportunity to grow and prosper with your company.

Don't hesitate to call should U need more information.
Louchelle Brand
